

# DIANE BORSKA

Diane Borska has more than 25 years of experience as a strategy consultant for a range of leading industrial and technology companies. As a principal and Fuld + Company's COO, she has led many engagements advising clients on issues such as technology development and investment, new market entry, mergers and acquisitions, and diversification. Her engagements include work in the Energy, Agriculture, Industrial Goods, and Information Technology sectors. She has also facilitated numerous strategy workshops for clients. Diane is known as a consulting leader and has been acknowledged as a 2017 Global Leader in Consulting by the Consulting Magazine.

## **EXPERTISE**

Prior to Fuld + Company, Diane worked as a consultant to the energy and utilities industry addressing issues such as smart grid investment, competitive retail strategies, and industry consolidation and convergence. She also worked as a mechanical engineer for one of the industry's leading EPC firms, supporting multi-billion-dollar construction projects.

## **EDUCATION**

Diane has a B.S. in Mechanical Engineering from Cornell University.
